

ENGINEERED TO **PERFORM.**
BUILT TO **LAST.**

A large, modern agricultural building with blue corrugated metal siding and large glass windows. The building is illuminated by the warm, golden light of a sunset or sunrise, with the sun low on the horizon to the left. The sky is filled with dramatic, dark clouds. In the foreground, there is a paved parking area and some small plants. The overall scene conveys a sense of modern, durable agricultural infrastructure.

AGRICULTURAL SOLUTIONS

BUILT FOR **GROWTH.**
DESIGNED FOR **PRODUCTIVITY.**

At Quick Steel, we understand the demands of modern poultry farming. Our steel structures are engineered to create the ideal environment for healthy birds, efficient operations and sustainable long-term growth.

Smart engineering.
Stronger structures.
Healthier flocks.
Better results.

OPTIMAL ENVIRONMENT

Engineered for natural ventilation, temperature control and bird comfort.

FAST & EFFICIENT

Pre-engineered steel components ensure quick installation and minimal downtime.

STRONG & DURABLE

High-quality steel structures built to withstand harsh conditions and last for generations.

SCALABLE DESIGNS

Customised layouts that can grow with your operation – from small farms to large-scale facilities.

SOLUTIONS THAT SUPPORT **YOUR SUCCESS**

From planning and design to manufacturing and construction, we deliver complete steel structure solutions for the poultry industry.

Our commitment is simple – to provide reliable, cost-effective structures that help you achieve better productivity and long-term profitability.

AGRICULTURE BUILT WITH PURPOSE.

Our poultry farm solutions are designed to deliver the ideal environment for healthier birds, efficient operations and long-term profitability.

Quality steel.
Practical design.
Results that last.

SMART DESIGN

Purpose-built layouts that optimise airflow, space utilisation and bird welfare.

DEPENDABLE STRENGTH

High-quality steel structures engineered to withstand harsh farming conditions.

BUILT EFFICIENTLY

Pre-engineered components allow for faster construction and less downtime.

GROW WITH CONFIDENCE

Scalable solutions that adapt to your needs – from small farms to large-scale operations.

SOLUTIONS THAT SUPPORT YOUR SUCCESS

From planning and design to manufacturing and construction, we deliver complete steel structure solutions for the poultry industry.

PLANNING & DESIGN

Customised solutions tailored to your operation and goals.

MANUFACTURING

Precision-engineered steel components for quality and accuracy.

CONSTRUCTION

Experienced teams ensuring safe, efficient and on-time delivery.

AFTERCARE SUPPORT

Ongoing support to keep your operation running at its best.

ENGINEERED TO PERFORM. BUILT TO LAST.

High-quality steel structures engineered for strength, efficiency and long-term value.

SUPERIOR STRENGTH

Premium steel and precision engineering for maximum durability.

OPTIMAL ENVIRONMENT

Designed for ventilation, temperature control and bird comfort.

SUSTAINABLE SOLUTIONS

Built to reduce environmental impact and support responsible farming.

OUR PROCESS. YOUR CONFIDENCE.

From planning to completion, our proven process ensures every structure is built to the highest standards – on time, on budget, and built to last.

01

SITE DEVELOPMENT PLAN

We work closely with you to understand your needs and deliver smart, practical designs.

02

MANUFACTURING

Precision-engineered steel components manufactured for quality and accuracy.

03

DELIVERY

On-time delivery of all components to keep your project moving forward.

04

INSTALLATION

Experienced teams ensure safe, efficient installation with minimal disruption.

05

COMPLETION

A fully completed structure, built to perform for years to come.

PROJECT SHOWCASE

REAL PROJECTS. REAL RESULTS.

We're proud to partner with farmers across Africa to deliver reliable, high-performing poultry structures that stand the test of time.

STRONGER STRUCTURES. BETTER RESULTS.

Our steel structures are built to withstand harsh conditions, optimise efficiency and support the long-term success of your operation.

ENGINEERED FOR PERFORMANCE

Precision-engineered steel structures designed for strength, stability and reliability.

BUILT TO ENDURE

High-quality materials and expert craftsmanship ensure long-lasting durability.

DESIGNED FOR EFFICIENCY

Optimised layouts improve airflow, reduce operating costs and enhance productivity.

SCALABLE FOR YOUR GROWTH

Flexible designs that adapt to your needs – from small farms to large-scale operations.

SUPERIOR VENTILATION

Engineered airflow systems maintain ideal temperatures and improve bird welfare.

EXCEPTIONAL DURABILITY

Galvanised steel components provide maximum resistance to corrosion and harsh environments.

FASTER INSTALLATION

Pre-engineered components reduce on-site time and minimise disruption.

LOWER OPERATING COSTS

Efficient designs and quality materials help reduce maintenance and energy costs.

BUILT FOR THE LONG TERM

Structures that deliver consistent performance and support your business for years to come.

SOLUTIONS THAT SUPPORT YOUR SUCCESS

From planning and design to manufacturing and construction, we deliver complete steel structure solutions for the poultry industry.

Our commitment is simple – to provide reliable, cost-effective structures that help you achieve better productivity and long-term profitability.

BOTSWANA HATCHERY

1. LENGTH
100 meters

2. WIDTH (FREE SPAN)
40 meters

3. HEIGHT
6.5 meters

4. AREA
4000 m²

5. CONSTRUCTION TIME
8 Weeks

INTERNAL EQUIPMENT & SYSTEMS

- Drinkers
- Feeders
- Lighting
- Water Storage Tanks
- Feed Storage Bins
- Side Curtains
- Heating Systems

WHY CHOOSE QUICK STEEL?

- ✓ Less weight = easier transport
- ✓ Little to no craneage required
- ✓ Up to 60% faster installation
- ✓ Modular units for future growth
- ✓ Site development plans
- ✓ Polyurethane roof insulation and structural insulation
- ✓ Offer civil design and construction
- ✓ Engineering certificates and analysis of steel structures
- ✓ Laser cut assembly brackets
- ✓ 3D design & precision detailing

**PRECISION ENGINEERING.
SMARTER CONSTRUCTION.
STRONGER RESULTS.**

ENGINEERING & DESIGN EXCELLENCE

STRUCTURAL
DESIGN & ANALYSIS

Advanced engineering ensures safety, durability and optimal performance.

ENGINEERING
CERTIFICATION

All structures designed to meet relevant standards and codes.

CIVIL DESIGN &
CONSTRUCTION

We offer complete civil works, from foundations to finish.

SITE DEVELOPMENT
PLANS

Planned for efficiency - from access roads to drainage solutions.
